RESOLUTION #15/16-204

RESOLUTION IN SUPPORT OF SENATE BILL S7934

BY: FULL COUNCIL

RESOLVED, the City of Amsterdam Common Council is hereby in full support of proposed Senate Bill S7934 described as follows

AN ACT to amend the public health law, in relation to prevent Drug Addiction a disease in children age 12 to 18 years or graduating from High School by routinely performing drug screening test for illegal drugs as part of physical every year and as deemed necessary; inclusive

PURPOSE OR GENERAL IDEA OF BILL:

To prevent drug addiction by mandating drug screening testing of all children from 12 to 18 years of Age strictly from Health point of view. Use of Illicit drugs and abuse of some prescription drugs lead to addiction which causes a Brain Disease. Although initial drug use might be voluntary, once addiction develops this control is markedly disrupted.

The single most powerful motivator in Drug abusers existence is to acquire the illicit drug and he or she will do anything to acquire the drug. The impact of illicit drugs touches many social aspects: crime, violence, domestic and sexual abuse, educational failure, healthcare costs, HIV & AIDs, accidents and injuries.

Substance Abuse and Mental Health Services Administration (SAMHSA) state in 2012 about 2.9 million persons aged 12 or older used illicit drug for the first time within the past 12 months, this averages to 7900 new users per day. The rate of illicit drug users increases from 3.5% at 12 years of age to 16.6% at ages 16 years of age. The highest rate of current illicit drug use is in college students 18 to 20 year old at 23.0%.

Among all the seriousness of health problems Americans consider drug abuse as number one, compared to Cancer, Heart Disease, HIV/Aids etc.

Estimated Economic Cost to society due to Substance Abuse and Addiction is \$181 billion/year compared to Diabetes \$131.7 billion and Cancer \$171.6 billion.

Parents of children addicted to illegal drugs and prescription drugs are the last one to know in spite of being vigilant.

Drug Addiction does not discriminate against race, color and gender.

Parents of young children express concern and fear that their children will be exposed to Drugs, on School grounds when they grow to be teenagers.

SUMMARY OF SPECIFIC PROVISIONS:

Every child age 12 to 18 receiving health services shall have preformed a drug screening test for illegal drugs if not annually.

JUSTIFICATION :

Drug Addiction is a disease and in the United States of America it is in epidemic proportion. Heroin related deaths increased 84% in NYC from 2010 to 2012.

Drug abuse is so prevalent in children. Children often develop drug addiction which is a disease and no child is screened or tested for drug use strictly from health point of view. If tested positive for illicit drugs in **EARLY STAGES**, they can be taken care of with parental and community involvement before the child develops an addiction.

1) It is **mandatory** to do screening tests in Newborns for disease that are very rare. The incidence of some diseases is 1 in 450,000 children. Yet the incidence of illicit drug use in college is 23%.

2) It is mandatory to do Lead screening test in children at 1 and 2 years of age, even though they live in houses with Lead free paint.

3) It is mandatory to give immunizations for some diseases that are rare in the United States of America such as Diphtheria, Tetanus, and Polio yet every child attending school is required to receive 5 shots of Diphtheria, Tetanus, and Polio vaccinations.

The illicit drug use in the United States of America is so prevalent, leading to drug addiction and no child is tested routinely for drugs strictly from a health point of view with no punitive measures, with no legal or criminal implications, maintaining strict confidentiality. The records will be destroyed permanently when child leaves the School and will never be used for future references.

For the fact that children know, they will be tested for use of Illegal Drugs this Law acts as deterrent.

Savings: Major portion of Estimated Economic Cost of \$181 billion to the society due to Substance Abuse and Addiction will be avoided. This is a great savings of Tax payer's money.

COST: With Affordable Care Act everyone is covered by the insurance. Medicaid, Managed care and Private Insurances should cover the cost of Drug screening as they cover for other preventive tests like Lead Screening, Newborn Screening for rare diseases, and Immunizations. Drug Addiction is a Disease and prevalent. Drug screening test should also be covered.

Advantages of the Bill

Aim is to decrease the number of children 12 yrs or older using the illicit drugs for the first time which is 7900 every day according to SAMHSA.

This bill acts as Deterrent from trying the illicit drugs as the children 12 yrs and older will know that they can be tested for drugs once every year or as deemed necessary at any time.

We can decrease the concern among parents about children attending sports or parties getting involved with illicit drugs. Among all the seriousness of health problems Americans consider drug abuse as number one, compared to Cancer, Heart Disease, HIV/Aids etc.
